

## **Epiwork 2<sup>nd</sup> project meeting**

This second project meeting is intended not only as a check point of the activities of the project within the consortium but also, more importantly, as a moment for establishing the future integration and joint research among the partners and among the Work Packages. The meeting will allow, as the previous years, all partners to provide a summary of the activities undertaken and the progress of the research activities. Nevertheless, the agenda will allow large room for the discussion about the future direction of the research activities for the next years from the integration and interdependence point of view. As the first year, we will also have all the formal moment of the consortium with the Steering committee meeting. Emphasis should be given to the discussion of the previous year feedback concerning integration, collaborations and exploitation of the results.

### **Preliminary AGENDA**

#### **Monday, December 6<sup>th</sup> (all participant)**

- |            |   |
